

NORTHSHORE UTILITY DISTRICT Water System Plan

G&O #14451
June 2016
Final Approval May 2017

Gray & Osborne, Inc.

NORTHSHORE UTILITY DISTRICT
KING COUNTY WASHINGTON

WATER SYSTEM PLAN

G&O #14451
JUNE 2016

TABLE OF CONTENTS

EXECUTIVE SUMMARY

CHAPTER 1 – INTRODUCTION

INTRODUCTION	1-1
PURPOSE.....	1-1
PLAN SUMMARY	1-1
HISTORY OF THE DISTRICT.....	1-2
CAPITAL IMPROVEMENTS	1-4
ORGANIZATION.....	1-5
LIST OF ABBREVIATIONS	1-5
GLOSSARY OF TERMS	1-7

CHAPTER 2 – REGULATORY REQUIREMENTS

INTRODUCTION	2-1
LEGISLATION, REGULATIONS, AND PERMITS	2-1
Washington Administrative Code	2-1
King County Code	2-1
Endangered Species Act.....	2-1
Federal Clean Water Act.....	2-2
Floodplain Development Permit.....	2-2
Growth Management Act.....	2-3
Hydraulic Project Approval	2-3
Local Permits.....	2-3
Municipal Water Law	2-4
National Environmental Policy Act.....	2-4
Reclaimed Water Regulations and Standards	2-4
Safe Drinking Water Act.....	2-5
Shoreline Management Act Permit.....	2-5
State Environmental Policy Act	2-5
Water Rights.....	2-5
Water Right Claim	2-6
Water Right Permit	2-6
Water Right Certificate.....	2-6
REGULATORY AGENCIES	2-6
United States Environmental Protection Agency	2-6
United States Fish and Wildlife Service	2-7
National Marine Fisheries Service.....	2-7
United States Army Corps of Engineers	2-7
Washington State Department of Health	2-8
Washington State Department of Ecology.....	2-8
Washington State Department of Fish and Wildlife.....	2-8
Local Health Departments.....	2-8
City and County Planning Policies	2-8

District Policies	2-9
DESIGN, CONSTRUCTION, OPERATION AND MAINTENANCE STANDARDS	2-10
Minimum Department of Health Design Standards	2-10
Level of Service	2-11
Minimum Pipe Sizes	2-11
Storage	2-11
Source	2-13
Fire Flow	2-13
Construction Standards.....	2-13
District Design Standards.....	2-13
WATER QUALITY STANDARDS.....	2-13
Existing Drinking Water Standards	2-14
Bacteriological	2-14
Residual Disinfectant	2-15
Consumer Confidence Reports	2-15
IOCs, VOCs and SOCs.....	2-15
Arsenic Rule	2-16
Lead and Copper	2-16
Radionuclide Rule	2-16
Disinfectants/Disinfection Byproducts.....	2-16
Surface Water Treatment Rule.....	2-17
Interim Enhanced Surface Water Treatment Rule	2-17
Long-Term 1 Enhanced Surface Water Treatment Rule	2-17
Long-Term 2 Enhanced Surface Water Treatment Rule	2-17
Unregulated Contaminant Monitoring Rule	2-18
Anticipated Future Drinking Water Standards.....	2-18
Sulfate Rule	2-18
Radon.....	2-19
Aldicarb Rule.....	2-19
Groundwater Rule	2-20
SPU Groundwater Exemption	2-20

CHAPTER 3 – PLANNING CRITERIA AND SERVICE POLICIES

INTRODUCTION	3-1
GROWTH MANAGEMENT	3-1
SERVICE AREA.....	3-1
Retail Service Area	3-2
Retail Service Area by Agreement	3-2
Wholesale Service Area	3-2
Customer Service Policies.....	3-3
Water Service and Connections	3-3
Timelines, Extensions, and Dispute Resolution	3-4
Satellite System Management.....	3-5
Physical Environment	3-5
Topography.....	3-5

Groundwater	3-6
Climate	3-6
Surface Water.....	3-6
Site-Sensitive Areas	3-7
Geology	3-8
Soils	3-8
Flora and Fauna.....	3-9
Endangered Species.....	3-9
LAND USE PLANNING.....	3-10
WASTEWATER SYSTEM	3-12
INTERGOVERNMENTAL COORDINATION	3-12
Alderwood Water & Wastewater District.....	3-13
City of Bothell	3-13
City of Kenmore	3-13
King County	3-13
City of Kirkland.....	3-14
Lake Forest Park Water District	3-14
City of Lake Forest Park	3-14
Seattle Public Utilities.....	3-15
North City Water District.....	3-15
Snohomish River Regional Water Authority	3-15
City of Woodinville	3-15
Woodinville Water District	3-16
RELATED PLANNING DOCUMENTS	3-16
Comprehensive and Water Plans	3-16
District Water System Planning Documents	3-16
Other District Plans and Reports	3-17
REGIONAL CONSERVATION PROGRAMS.....	3-17
PLANNING PERIOD	3-17
POPULATION	3-17
Current and Projected Retail Service Area Population.....	3-18
Retail Service Area Buildout Population	3-19

CHAPTER 4 – EXISTING WATER SYSTEM COMPONENTS

INTRODUCTION	4-1
SOURCE OF SUPPLY	4-1
Tolt River	4-1
Cedar River	4-2
Water Rights.....	4-2
SPU Water Rights	4-2
Snohomish River Regional Water Authority.....	4-2
District Surface Water Application	4-2
Water Treatment	4-3
Tolt Treatment Facility.....	4-3
Cedar River Treatment Facility	4-3

Supply Pipelines	4-3
Master Meters.....	4-3
REGIONAL WATER RESOURCES PLANNING.....	4-4
SPU Supply Contract	4-5
Snohomish River Regional Water Authority	4-5
Groundwater Development	4-6
Reclaimed Water	4-6
EXISTING WATER SYSTEM FACILITIES	4-6
Storage Facilities	4-7
Inglemoor Tank Farm.....	4-7
Kingsgate Standpipe.....	4-7
Norway Hill Reservoir	4-8
Lake Forest Park Reservoir	4-8
Westhill Standpipe	4-8
Transmission and Distribution Facilities	4-9
Water Mains.....	4-9
Deactivated Water Mains	4-11
Pressure Zones	4-11
Pressure-Reducing Valve Stations	4-11
Booster Stations	4-13
Interties	4-14
Telemetry and Control	4-15
SCADA System	4-15

CHAPTER 5 – WATER USE CHARACTERIZATION AND FORECASTING

INTRODUCTION	5-1
WATER USE CHARACTERIZATION	5-1
Water Service Connections	5-1
Service Connections by Customer Class	5-1
Service Connections by Municipality within District.....	5-2
Water Use.....	5-3
Historical Annual Master Meter Flow.....	5-3
Peak Season and Maximum Month Water Demand	5-4
Maximum Day Water Demand.....	5-5
Peak Hour Water Demand	5-6
Consumption History	5-7
Per Capita Consumption.....	5-8
Per Employee Consumption	5-8
Distribution System Leakage.....	5-9
Equivalent Residential Units	5-10
WATER USE FORECASTING.....	5-13
Projected Equivalent Residential Units (ERUs).....	5-13
Projected Average Day Demand	5-14
Projected Peak Demands.....	5-15

CHAPTER 6 – WATER SYSTEM HYDRAULIC ANALYSIS

INTRODUCTION	6-1
HYDRAULIC MODELING PROGRAM	6-1
HYDRAULIC MODEL DEVELOPMENT	6-2
Model Layout and Construction	6-2
Water Supply	6-2
Reservoirs and Standpipes	6-3
Automatic Control Valves	6-3
Booster Stations	6-4
System Demands	6-4
Existing System.....	6-4
Future Growth.....	6-4
Model Calibration	6-4
MODELED SCENARIOS AND RESULTS	6-8
Peak Hour Analysis	6-8
Fire Flow Analysis.....	6-9
Additional Modeling Analyses.....	6-12
425-450 Zones PRV Analysis.....	6-12
451 Zone Regional Vault.....	6-12
Alternate Inglemoor Transmission Main.....	6-12
SUMMARY OF HYDRAULIC CAPACITIES AND DEFICIENCIES.....	6-12

CHAPTER 7 – SYSTEM ANALYSIS

INTRODUCTION	7-1
WATER QUALITY ANALYSIS	7-1
Bacteriological.....	7-1
Residual Disinfectant	7-2
Disinfection Byproducts	7-2
Lead and Copper.....	7-2
Water Quality Reporting.....	7-2
WATER RIGHTS ANALYSIS	7-2
FACILITY ANALYSIS	7-3
Source of Supply	7-3
Source of Supply Analysis	7-3
Source Reliability.....	7-4
Alternative Sources of Supply	7-4
Storage Analysis	7-4
Physical Condition	7-4
Storage Area Demand Allocation	7-5
Storage Requirements.....	7-6
Storage Capacity Analysis Summary	7-11
Booster Stations.....	7-13
Lake Forest Park	7-14
Inglemoor Booster Station.....	7-15
Norway Hill	7-15

Summary of Booster Station Capacity Analysis.....	7-16
Inglemoor Transmission Main	7-17
Distribution.....	7-17
SUMMARY OF SYSTEM DEFICIENCIES.....	7-18
Storage Deficiencies	7-18
Booster Stations	7-19
Transmission	7-19
Distribution.....	7-19

CHAPTER 8 – OPERATION AND MAINTENANCE PROGRAM

INTRODUCTION	8-1
WATER SYSTEM ORGANIZATION	8-1
OPERATOR CERTIFICATION.....	8-3
SYSTEM OPERATION AND CONTROL.....	8-3
SCADA System.....	8-3
FACILITY PERFORMANCE EVALUATION.....	8-4
PREVENTIVE MAINTENANCE.....	8-5
SCADA System.....	8-5
Master Meters.....	8-5
Reservoir	8-5
Automatic Meter Reading	8-6
Booster Stations	8-6
Interties.....	8-6
Distribution System	8-6
Fire Hydrants	8-7
CROSS-CONNECTION CONTROL PROGRAM.....	8-7
EMERGENCY RESPONSE.....	8-7
SAFETY PROCEDURES.....	8-8
MAINTENANCE RECORD SYSTEM.....	8-9
STAFFING RESPONSIBILITIES	8-9
Water Quality Coordinator.....	8-9
Dispatch	8-9
Water Supervisor	8-9
Utility Lead Water Service.....	8-9
Water Service Group Crew	8-10
Utility Lead Water Metering	8-10
Water Metering Group Crew.....	8-10
Utility Locator	8-10

CHAPTER 9 – WATER USE EFFICIENCY PROGRAM

INTRODUCTION	9-1
CONSERVATION PLANNING REQUIREMENTS	9-1
PLANNING REQUIREMENTS	9-2
Data Collection and Reporting	9-2
Demand Forecasting	9-3

WUE Measures.....	9-4
Source and Service Metering	9-5
Goal Setting and Performance Reporting	9-5
WATER USE EFFICIENCY PROGRAM DEVELOPMENT AND LEVEL OF IMPLEMENTATION....	9-5
Water Use Efficiency Goals.....	9-5
Evaluation and Selection of Water Use Efficiency Measures.....	9-6
Mandatory Measures	9-6
Supplemental Measures.....	9-8
Target Water Savings.....	9-8
SOURCE OF SUPPLY ANALYSIS.....	9-9
Optimizing Use of Current Supplies.....	9-9
Enhanced Conservation Measures	9-9
POTENTIAL FOR WATER REUSE	9-10
Introduction	9-10
Permitted Uses of Reclaimed Municipal Wastewater	9-10
Groundwater Recharge.....	9-11
Streamflow Augmentation.....	9-12
Other Uses	9-12
Reuse Area Requirements	9-12
KCDNR Brightwater Treatment Plant and Reclaimed Water Plan.....	9-13
Potential for Irrigation Water Reuse.....	9-14
Potential for Industrial Water Reuse.....	9-15
Jetting of Sanitary Sewer Lines.....	9-16
Feasibility of Reclaimed Water.....	9-16

CHAPTER 10 – CAPITAL IMPROVEMENTS

INTRODUCTION	10-1
MISCELLANEOUS PROJECTS (M)	10-2
M-1: Easement Issues (6-Year).....	10-2
M-2: RWA Source Development (20-Year).....	10-2
M-3: Lake Forest Park Reservoir and Pump House Improvements (6-Year)...	10-2
M-4: Water System Plan Extension (6-Year).....	10-2
M-5: Leak Detection (Annual)	10-3
M-6: Norway Hill Reservoir Interior Recoating and Seal Welding (6-Year)...	10-3
M-7: Inglemoor Standpipe Exterior and Interior Recoating (6-Year).....	10-3
M-8: Inglemoor Reservoir 3 Exterior Recoating (10-Year).....	10-3
M-9: Westhill Standpipe Interior Recoating (10-Year).....	10-3
M-10: Kingsgate Reservoir Interior Recoating (10-Year).....	10-4
M-11: Headquarters Skylight and Coatings (6-Year).....	10-4
M-12: 112th PRV and Hydroturbine Project (10-Year)	10-4
M-13: 366 Zone Water Main (10-Year)	10-4
M-14: 104 th Street Master Meter 4 Upgrades (10-Year)	10-4
M-15: Water System Plan (10-Year)	10-5
M-16: St. Edwards Water Main Loop (10-Year)	10-5
M-17: 366 Zone Reservoir and Booster Station (10-Year).....	10-5

PRV STATION (P).....	10-5
P-1: PRV Station Upgrades (6-Year).....	10-5
SEISMIC UPGRADE PROGRAM (S).....	10-5
S-1: Access Manways to Inglemoor Transmission Main (20-Year)	10-5
S-2: Inglemoor Restrained Joints in Liquefaction Zone (6-Year).....	10-6
S-3: Norway Hill Booster Station (10-Year).....	10-6
S-4: 68th Avenue NE Bridge Water Main Replacement (6-Year).....	10-6
S-5: Sammamish River Crossing Replacement Water Mains (10-Year).....	10-6
S-6: Inglemoor Transmission Main Replacement (Beyond 20-Year CIP).....	10-7
REPAIR AND REPLACEMENT PROJECTS (R).....	10-7
SUMMARY.....	10-9

CHAPTER 11 – FINANCE

INTRODUCTION	11-1
EXISTING SERVICE RATES	11-1
EXISTING SERVICE CONNECTION CHARGES.....	11-3
FINANCIAL STATUS OF THE WATER AND WASTEWATER UTILITIES.....	11-4
CAPITAL IMPROVEMENT PROJECT FUNDING	11-5
RATE IMPACTS	11-6

LIST OF TABLES

<u>No.</u>	<u>Table</u>	<u>Page</u>
E-1	Projected Water Service Area Population and Employment	E-2
E-2	2013 Water System Data.....	E-3
E-3	Water Service Area Peak Demand Projections	E-4
E-4	10-Year CIP Summary.....	E-6
1-1	Historical District Timeline.....	1-3
1-2	Capital Improvements Completed	1-4
2-1	Water System Policies	2-9
2-2	Other District Policies.....	2-10
2-3	Summary of Existing Drinking Water Requirements.....	2-18
3-1	Priority Anadromous and Resident Fish Presence	3-10
3-2	Land Use Designation for the Northshore Utility District.....	3-11
3-3	Retail Service Area Land Use Designation.....	3-12
3-4	Projected Retail Service Area Population Based on TAZ Projections	3-18
3-5	Projected Retail Service Area Employment Based on TAZ Projections.....	3-19
3-6	Buildout Population for the Retail Service Area by Zoning Classification.....	3-20
3-7	Projected Retail Service Area Population and Employment.....	3-20
4-1	Existing Master Meter Connections	4-4
4-2	Existing Storage Facilities.....	4-9
4-3	Pipe Lengths by Diameter and Type.....	4-10
4-4	Pressure Reducing Valve Stations	4-12
4-5	Booster Stations	4-14
4-6	Northshore Utility District Interties.....	4-15
5-1	Active Water Service Connections by Customer Class (2006–2013).....	5-2
5-2	Percent of Water Service Connections per Municipal Entity (2012)	5-2
5-3	Historical Master Meter Flow	5-3
5-4	Historical Per Capita Master Meter Flow	5-4
5-5	Historical Peak Season and Maximum Month Master Meter Flow	5-5
5-6	Historical Maximum Day Demand.....	5-6
5-7	Historical Peak Hour Demand.....	5-6
5-8	Historical Consumption by Customer Class	5-8
5-9	Historical Residential Per Capita Water Consumption.....	5-8
5-10	Historical per Employee Water Consumption.....	5-9
5-11	Distribution System Leakage	5-10
5-12	Historical Equivalent Residential Unit Value	5-11
5-13	Historical Equivalent Residential Units by Customer Class.....	5-12
5-14	Water Service Area ERU Projections	5-13
5-15	Water Service Area Average Day Demand Projections	5-14
5-16	Water Service Area Peak Demand Projections	5-16
6-1	Master Meter Settings and SPU Hydraulic Grade.....	6-3
6-2	Model Calibration Results.....	6-6
6-3	System Conditions During 2034 Peak Hour Analyses	6-8

<u>No.</u>	<u>Table</u>	<u>Page</u>
6-4	Minimum System Pressures During 2034 Peak Hour Analyses	6-9
6-5	System Conditions During Fire Flow Analyses	6-9
6-6	Available Fire Flows at High Required Fire Flow Analyses	6-10
6-7	Residential Locations with Deficient Fire Flow.....	6-11
7-1	Source of Supply Analysis	7-3
7-2	Demand Allocation by Storage Area	7-5
7-3	Operational Storage	7-7
7-4	Equalization Storage.....	7-8
7-5	Fire Suppression Storage	7-9
7-6	Standby Storage.....	7-9
7-7	Dead Storage	7-10
7-8	Summary of Available Storage	7-11
7-9	2014 Storage Capacity Analysis.....	7-11
7-10	2020 Storage Capacity Analysis.....	7-12
7-11	2024 Storage Capacity Analysis.....	7-12
7-12	2034 Storage Capacity Analysis.....	7-13
7-13	Buildout Storage Capacity Analysis	7-13
7-14	Summary of Booster Station Capacity Analysis	7-16
8-1	District Operator Certification Status	8-3
8-2	Facility Performance Evaluation	8-4
8-3	Reservoir Preventive Maintenance Schedule	8-6
8-4	Emergency Preparedness Tasks and Projects.....	8-8
9-1	Summary of Water Use Data Collection.....	9-2
9-2	Distribution System Leakage	9-4
9-3	Inclining Water Service Rates.....	9-7
9-4	Water Conservation Measures.....	9-8
9-5	Projected Water Use with Conservation	9-9
9-6	Setback Distances for Class A Reclaimed Water in the State of Washington.....	9-13
9-7	KCDNR Projected Peak Day Reclaimed Water Demand.....	9-14
9-8	Reclaimed Water System Capacity	9-14
9-9	Potential Uses for Reclaimed Water.....	9-15
10-1	Water Main Replacement Program	10-7
10-2	Hydrant Fire Flow Upgrade Program	10-9
10-3	Capital Improvement Plan Summary.....	10-10
11-1	Bimonthly Base Charge by Customer Class	11-2
11-2	Bimonthly Usage Rates.....	11-3
11-3	Water and Wastewater Connection Charges.....	11-4
11-4	Fire-Protection Charges	11-4
11-5	Summary of Income and Expenses.....	11-5

LIST OF FIGURES

<u>No.</u>	<u>Figure</u>	<u>On or Follows Page</u>
1-1	Location Map	1-4
1-2	Water System Base Map	1-4
3-1	Topography Map	3-6
3-2	Sensitive Areas	3-6
3-3	Floodplain Map	3-8
3-4	Soils Map	3-10
3-5	Zoning Map	3-10
3-6	Wastewater System	3-12
3-7	City Limits and City UGA Boundaries	3-12
3-8	Transportation Analysis Zones	3-18
4-1	SPU Regional Supply System	4-4
4-2	Pressure Zone Map	4-12
4-3	Water System Schematic	4-12
5-1	Water Demand Diurnal Curve from July 25, 2013	5-7
8-1	Organization Chart	8-2
9-1	Brightwater Reclaimed Water Service Areas	9-10
9-2	Potential Sites for Water Reuse	9-10

APPENDICES

- Appendix A – Water Facility Inventory (WFI), Water System Plan Checklist, Water System Plan Submittal Form
- Appendix B – Correspondence and Comment Letters
- Appendix C – State Environmental Policy Act (SEPA) Checklist
- Appendix D – District Policies and Specifications
- Appendix E – Consumer Confidence Report
- Appendix F – Agreements
- Appendix G – Seattle Public Utilities (SPU) Water Supply Contract
- Appendix H – Water Right Application
- Appendix I – Modeling Results
- Appendix J – Coliform Monitoring Plan
- Appendix K – Operations and Maintenance Forms
- Appendix L – Cross-Connection Control Program
- Appendix M – Replacement Projects Map
- Appendix N – Rate Resolution
