PROGRAM DISCOUNT

LIDP customers will pay **45% of the current water base rate** and **50% of the non-King County portion of the current sewer base rate**.

Base rates are determined by the type of dwelling (*see table on following page*). The discount will **not** apply to water usage or any other charges the District assesses. LIDP customers **are** also eligible for the additional 5% early payment discount. *Not sure which discounted rate you qualify for? Contact (425) 398-4402 or billing@nud.net.*

HOW DISCOUNT WILL BE ISSUED:

The method through which program participants will receive the discounted rate depends on how they are billed by the District for water/sewer.

DIRECTLY-BILLED CUSTOMERS

Qualified customers who pay their water/sewer bills directly to the District – usually owners/renters of single-family residential properties, or multi-family properties with individual meters – will **pay the discounted rate on their bi-monthly billing statement.**

INDIRECTLY-BILLED CUSTOMERS

Qualified customers who pay for water/sewer through their rent, or as a separate charge to a property owner, agent, or third party – usually tenants of apartments, condominiums, or mobile home residences – will pay the usual rates. At the end of the program year, **they will receive a rebate check for the difference between the usual base rate paid and the discounted rate for each qualified month they lived at the residence during the program year.** See *table below with example.*

NOTE: Many multi-family property owners hire a third party to bill tenants and subsequently charge tenants the cost of this service. The District can only rebate for water/sewer base rates. We cannot reimburse additional charges assessed to the tenant by the owner for these third-party billing services.

EXAMPLE REBATE: This table shows 2023 LIDP rates for an apartment unit (5 or more total complex units) paying water and sewer for a full year (6 billing cycles):
